

C Jackson History
Letter March 11, 2002

In reference to our property at
5550 West Shore Dr.
Clark Lake

We bought our log cottage from Bob and Carolyn Cassidy in August 1958. It was 50 years old then.

Mr. Ed Steelwagon owned and lived next door to the south, he had 2 cottages side by side, 1 frame and one log.

Across the road we bought a lot from Fred Hebal and built a frame cottage for our children. They told us Mr. Ed Stellwagon ran a store at West Jacksonport before moving to Clark Lake.

When Mr. Stellwagon passed away we bought his property, tore down the old cottages and built a family room on our log cottage. Clark Lake was really nice then, plenty of fish and no noisy speed boats, now we can't hear in our kitchen for the noisy boats and the water is so churned up fishing is out of the question.

My husband Harley Jackson passed away March 10, 1999. I still own and use the property at Clark Lake.

Please find enclosed my cheque for Clark Lake membership.

C. Jackson
